

For the prevention and cure of
BILIOUS AND MALIGNANT FEVERS
is recommended

Hahn's ANTI-BILIOUS PILLS

THIS Medicine has been attended
with a degree of success highly grateful
to the inventor's feelings in several parts
of the West Indies and in the Southern
and Middle States, &c.

The testimony of a number of persons
can be adduced, who have reason to be-
lieve that a timely use of this salutary
remedy has, under Providence, preserved
their lives when in the most alarming cir-
cumstances.

Facts of this conclusive nature speak
more in favour of a medicine than col-
umns of pompous eulogy founded on
mere assertion.

It is not indeed presumptuously
proposed as an infallible cure, but the inven-
tor has every possible reason that can re-
sult from extensive experience for be-
lieving that a dose of these Pills taken
once in every two weeks during the pre-
valence of our bilious fevers, will prove
an infallible preventive; and further,
that in the earlier stages of those diseases
their use will very generally succeed in
restoring health, and frequently in cases
estimated desperate and beyond the pow-
er of common remedies.

The operation of these pills is perfectly
mild, so as to be used with safety by per-
sons in every situation and of every age.

They are excellently adapted to carry
off superfluous bile and prevent its mor-
bid secretions—to restore and amend the
appetite—to produce a free perspiration
and thereby prevent colds which are of-
ten of fatal consequences. A dose never
fails to remove a cold if taken on its first
appearance: they are celebrated for re-
moving habitual costiveness—sickness at
the stomach and severe head-ache—and
ought to be taken by all persons on a
change of climate.

They have been found remarkably effica-
cious in preventing and curing disor-
ders attendant on long voyages, and
should be procured and carefully preserv-
ed for use by every seaman.

Hamilton's Elixir

A sovereign remedy for colds, ob-
taining coughs, asthma, sore throats,
catarrhs, and approaching consumptions.
To persons who have children afflicted
with the HOOPING COUGH, this dis-
covery is of the first magnitude, as it af-
fords immediate relief, checks the pro-
gress, and in a short time entirely re-
moves the most cruel disorders to which
children are liable. The Elixir is per-
fectly agreeable, and the dose so small
that no difficulty arises in taking it.

Hamilton's Grand Restorative

Is recommended as an invaluable
medicine for the speedy relief and perma-
nent cure of
Nervous Disorders Violent cramps in
Consumptions the stomach and
Lowness of spirits back
Loss of appetite Indigestion
Impurity of blood Melancholy
Hysterical affection Gout in the stomach
Inward weakness Pains in the limbs
and debility Relaxations, etc.

Hamilton's Essence and Extract of Mustard

A safe and effectual remedy for acute
and chronic rheumatism, gout, rheumatic
gout, palsy, lumbago, numbness, white
swellings, chilblains, sprains, bruises, pain
in the face and neck, etc. etc.

Lee's Ointment for the Itch

Warranted an infallible remedy at one
application, may be used with perfect
safety by pregnant women, or on infants
a week old, not containing a particle of
mercury or any dangerous ingredient
whatever, and not accompanied with that
tormenting smart which attends the ap-
plication of other remedies.

Hahn's true German Corn Plaster

An infallible remedy for corns, speedily
removing them root and branch, with-
out giving any pain.

The Genuine Persian Lotion

So celebrated among the fashionable
throughout Europe, is an invaluable cos-
metic, perfectly innocent and safe, free
from corrosive and repellent minerals,
the basis of other lotions, and of un-
paralleled efficacy in removing blemishes
of the face and skin, freckles, pimples,
inflammatory redness, scurfs, tetters, ring-
worms, sunburns, prickly heat, &c.

Hahn's genuine Eye Water

A sovereign remedy for all diseases of
the eyes, whether the effect of natural
weakness or of accident.

Tooth Ache Drops

The only remedy yet discovered which
gives immediate and lasting relief in the
most severe instances.

Lee's Infallible Ague and Fever Drops

For the cure of agues, remittent and
intermittent fevers.

At the place of sale pamphlets
may be had gratis, describing cures per-
formed by the above medicines; the num-
ber, importance and respectability of
which, fully justify every article of this
advertisement.

ALEXANDRIA GAZETTE AND DAILY ADVERTISER.

PUBLISHED BY
SAMUEL SNOWDEN,
ROYAL STREET.

Daily Gazette 87.—Country Gazette 85.

FRIDAY, JANUARY 23, 1818.

Mr. Editor,

Accidentally meeting with your paper the other day, I observed a communication from "A Friend to Useful Improvements," with whom I heartily join in congratulating the public on the great importance of the projected road to Wileys—opening a more convenient communication with our most valuable back country. I must, however, beg leave to differ with him most decidedly on the utility of straight lines, for public roads. I recollect, when the great post roads were laid out in England, the commissioners, unfortunately for the public, happened to be admirers of straight lines, and appointed a disciple of Severus and Agricola to lay out the roads. Accordingly, the highest mountain or the deepest ravine could not deter him from following his favorite lines; although it was perfectly evident, that by winding round the bottom of a hill, or judiciously avoiding a ravine, the road might be made not only more comfortable but more interesting to the public, without materially increasing its distance: and such was the nature of the public opinion against these admirers of the ancients, that the roads have since been re-surveyed and altered, much to the comfort of the traveller, and greatly to the satisfaction of the public.

I was glad, however, to hear from him that the Little River Turnpike is likely to turn out a good speculation—as, from the mode in which it seems to have been conducted, I was prepared to expect a very different result. Let any person the least conversant in the art of road making, take a view of the recent alterations at the West End gate, where the gravel has been piled up 4 feet thick by 6 feet wide, compelling the waggon to wade through up to their bodies, without in the least being able to vary their track, and he will perceive that mismanagement exists somewhere. I hope, however, that the fault was committed from the haste it was necessary to use to make the road passable, and that it will be remedied as early as possible.

The last paragraph of the communication is scarcely intelligible to me. Is it possible that any obstacles could be thrown in the way of the turnpike from the circumstance of its entering any particular part of the town? If such objections were ever started, they must have been by selfish minds, fermenting in the dregs of ignorance. And that commerce will find its way to the best market, however difficult the path, must be evident to the most superficial OBSERVER.

From the Connecticut Current.

The following remarks on the commercial distress of Britain, are alike pertinent to the circumstances of the United States.

"When the currency" (says a certain able British writer) "was falling in value, government, as a debtor, profited on all its past transactions; but the nominal amount of all its future loans was increased, in proportion to the depreciation of the currency. If we suppose the currency depreciated one fifth, government, in place of 20 millions, must have required a loan of 24 millions; and as large sums were borrowed at this period, the low value of the money added greatly to the nominal amount of the public debt. The currency has been since restored to its nominal value, but the public debt has not been decreased; so that the depreciated money which government borrowed, is now repaid in money of a higher standard; and by this transaction, it is evident that a great addition has been made to the public burdens."

Richmond, January 20.

Yesterday, in the house of delegates, on motion of Mr. Blackburn—Resolved, That the committee of roads and internal navigation be instructed to enquire into the expediency of granting to Churchill Jones, of the county of Stafford, permission to build a toll bridge across the Appahannock, commencing on his land in the county of Stafford, and extending across to Fredericksburg; and that they have leave to report by bill or otherwise. On motion of Mr. Barton—Resolved, That a committee be appointed to enquire into the expediency of moving the seat of government from the city of Richmond to the centre of the state; and that they have leave to report by bill or otherwise.

ALEXANDRIA: FRIDAY, JANUARY 23, 1818.

FROM OUR CORRESPONDENT AT WASHINGTON.

Thursday, January 22, 1818.

I very much question whether I am not doing more service to the Post Office than to you by sending a letter about yesterday's proceedings. It is something, however, to be able to say that that quagmire in which the house was for so many days bogged up to the hips, I mean "the bill for regulating the effects of certain judicial proceedings in the United States," is removed—at least a way has been made round about to avoid it.—Mr. Forsyth moved to postpone it indefinitely: and his motion was carried—so, that affair is gone to the tomb.—Peace to its manes! It to law proceedings peace can ever come, that comes to all—occasionally.

The bill appropriating sums for the military service was read a third time and passed.

Some time was lost on an effort made by Mr. Bassett to add one more to the rules of the house for the purpose of determining assigning to each day its particular business, without interruption from the taking up of any other.—Like Sir Roger de Coverly's question, much was said on both sides—but the proposition was ultimately negatived. Adjourned.

Charleston, January 16.

A letter from St. Mary's, dated 9th inst. says—"You have heard, of course, of our forces having taken possession of Amelia; it was done in style; the Patriots are rather quiet, but do not evince any great inclination to leave their nest; no sociability whatever exists between Army and our officers—indeed they have not even seen each other; they will certainly find it difficult to get away, as they will be compelled to pay all debts due to individuals, as well as for depredations committed during their stay."

Norfolk, January 19.

The schr Herald, Swanton, from Baltimore bound to Charleston, was driven ashore in the snow storm on Tuesday morning last; about half way between Lynnhaven Inlet and Cape Henry Light. It is, however, the opinion of those who have viewed her situation that she may be got off with the first tolerable high tide. She is reported to have received no injury from grounding.

The schr Elizabeth, Gentry, from the Spanish Main, bound to Baltimore, took a pilot on Thursday night; she had lost her rudder in the late gale. The Elizabeth spoke a few days since, a brig from the northward bound to this port; the brig had made Cape Henry light-house, but had got blown off again.

The ship Warrington, Smith, formerly of this port, arrived at Rio Janeiro on the 17th of November last, after a passage of 51 days (round Cape Horn) from Valparaiso. Under date of the 22d of the same month, the captain writes to a gentleman of his acquaintance in this town, and observes, that he expects to sail in the course of a month for France, with a cargo of coffee, sugar and cotton. He also states, that he has made a great voyage for the owners in France, and has not been altogether idle himself, altho' things have not turned out so well as he had expected, in consequence of the goods having been badly put up.

The sloop Phoenix, Murphy, of Philadelphia, from Fredericksburg, and last from this port, bound to New-York, was blown off in a gale on the 20th December; lost her mainsail, and was obliged to put into Savannah, where she arrived on the third instant.

MUSCULAR EXERCISE.

Nothing is more common in England than trials of muscular strength, speed and bottom of their men as well as horses. The walking and running matches are well known; the last exhibition of the kind we have seen was a feat of one Wardell, who ran three miles in sixteen minutes and twelve seconds—going a mile in five minutes and twenty-four seconds. These feats appear to many to be gross if not brutal; but they excite to muscular energy and activity, which have been found useful in national emergencies. Prior to the battle of Waterloo the British army, taken by surprise, had forced marches to make and fatigues to undergo, which nothing but the exertion of the physical strength of which the human frame is capable could have performed. We have indubitable evidence of the most astonishing feats of the kind, in whole corps and individuals. It has been proved that Taylor, a sergeant of the British dragoon guards, and a famous single stick (cudgel) player, killed three of the French carabiniers in that battle by the exertion of his great strength and skill; and that corporal Shaw, of another English corps, was encountered by six of the imperial guard, and by his muscular force killed four of them before he was despatched by the fifth.

Affliction is the vain and ridiculous attempt of poverty to appear rich.

MISSOURI.

Extract of a letter from a gentleman who some time since emigrated from Portsmouth, N. H. to the Western country, dated at St. Charles, near St. Louis, in the Missouri Territory.

I have finally concluded to fix my family here. In point of healthiness, beauty of country, and fineness of land, I have seen no place that I like so well. This village is situated by the River, 40 miles from St. Louis, and about 20 miles up the Missouri, which is navigable more than 3000 miles above this. The land about this town is the most delightful that can be imagined. Great part of it is a kind of land of which the people in New-England have no idea; an open, level plain of the richest possible soil, 40 feet deep, perfectly free from bushes, and covered with grass higher than my head. On these fields the people get 80 bushels of corn, 30 of wheat, two thousand pounds of tobacco, and the same quantity of hops to the acre, with no manure, and very little cultivation. Where they have gardens they raise the most beautiful fruit imaginable.—Plums and hops grow wild in great abundance.

As thousands of acres of the finest pasture lies open, every one keeps as many cows and horses, as he chooses, and cuts any quantity of hay for them where he pleases. And yet butter and cheese are higher here, than in New-England.—This arises from the extreme laziness of the people, and from not one in a hundred knowing how to make cheese. Mechanics get from 2 50 to 3 dollars a day.—Land may now be had from 2 50 to 3 dollars the acre—but as emigrants are flowing in by hundreds, it will shortly rise in value. We are here, near the mouth of the Missouri, and the Illinois, and only four miles from the Mississippi. Goods are conveyed from here to N. Orleans cheaper, than 50 miles back in the country from Boston. Wild game is abundant; I seldom go out without seeing a deer—and in a ride last Monday, I am confident I saw 500 wild turkeys.—And yet the land is great part of it open, and looks like old fields. The country is as healthy, I think, as in N. England and I am inclined to think it more so for feeble people. I have my health better. The summers here are very hot, but healthy. The winters are short and moderate. I am about trying to build me a brick house in the village; but if I am able, I mean in the spring to have a log house and a farm on the beautiful prairie near this town, in view of the Missouri, the Illinois and the Mississippi. The soil is the richest and the prospect the most delightful of any place I have ever seen. I languish indeed for the society of my friends; but if we are to see each other faces no more in this world, let us so live that we may have some ground to indulge the hope that we may meet in heaven.

New-York, January 19.

LATEST FROM THE SPANISH MAIN. By the arrival this morning of the schooner Major Croghan, Captain Wooten, in 27 days from Curacao, we have received a file of the Curacao Gazette to the 20th of December, from which we copy the latest advices from the Spanish Main. We have also been furnished with a manuscript copy of a proclamation of General Bolivar, who had been elected Governor of Augustura, which we have translated for our paper this evening.

Translated for the Commercial Advertiser.

PROCLAMATION.

SIMON BOLIVAR, Supreme Chief of the Republic of Venezuela, to the Soldiers of the Liberating Army.

SOLDIERS!—Yesterday was a day of the deepest sorrow for my heart. The crimes of conspiracy and treason against our country, and the desertion from her banners, brought General Piar to be executed. A lawful and just court pronounced the sentence upon this unfortunate citizen; who, inebriated with the favors of fortune, and in order to satisfy his boundless ambition, attempted to bury his country in her own ruins. General Piar had indeed done important services to the republic, but he was amply rewarded by her, although his whole course of conduct had been always remarked as factious.

There was nothing left to be wished for by him who had attained the highest rank in the army. The second honorable post in this republic being vacant, owing to the separation of General Marino, was even to be conferred on him, before his rebellion. But this general, who aspiring only to the supreme command, formed the most atrocious plan that a wicked soul may conceive. Piar's designs embraced not only a civil war, but anarchy and the most inhuman butchery and sacrifice of his brothers and companions in arms.

Soldiers!—You know it very well. Our motto is, Liberty, Equality, and Independence. Has not your arm recovered its rights through our arms? Have they not broken the chains of slavery? Has not the odious difference of classes and colors been forever abolished? Has not the national property been divided between you? Are not fortune, science, and glory awaiting you? Are not your merits recorded with profusion, or at least with justice? What then did General Piar wish for you? Are you not free, equal, independent, happy, and honored? Could Piar pronounce greater blessings for you? No, no, certainly no. Piar was with his own hands digging the grave of our Republic, there to bury the

lives, the wealth, the innocents, the well being, and the honors and glory of the brave defenders of Venezuela, as well as of their children, wives and parents.

Heaven has viewed with horror this parricide, and did not permit that a man, who in such a manner offended the deity, and human kind, should longer profligate the earth, that ought not to suffer him to exist a moment, after his nefarious deeds. Heaven itself delivered him to be punished by the laws.

Soldiers, God watches over your welfare, and this government, which is your parent, is constantly vigilant for your happiness. Your leader, who has always been your companion in arms, and who, always at your head, has shared with you in all your perils, dangers, miseries, and in your triumphs, trusts in you. Trust then in him; being assured that you are more loved and endeared to him, than if he were your own parent or your child.

Head-Quarters at Augustura, October 17th, 1817—and of the independence the 7th.

(Signed) BOLIVAR.

From the Curacao Current of Nov. 20. His Majesty's Frigate Eurydice, Captain Polders, came into port on Sunday morning, from La Guayra, last from Puerto Cabello.

On Wednesday three ships, a brig and a felucca, apparently men of war, and carrying the French flag, passed on the south side of this island, steering a westerly course. One of them appeared to be a two-decker. Any particulars relative to their destination have not as yet transpired.

The schooner Live Oak, Hunt, of N. York, bound to this island, put into St. John's, Porto Rico, on the 22d October, with the loss of main-mast and all her sails.

DEFEAT OF THE ARMY OF ZARAZA. Official despatch from the Colonel of the regiment of Navarre, commandant of Calabozo, to his excellency the captain General, commandant of Military forces.

From Brigadier D. Manuel de la Torre I have received the following despatch dated yesterday:—

"I have the honor to acquaint you for the information of the troops under your command, that the insurgent army which, occupying the best positions, with 1000 houses, and upwards of the same number of infantry, (agreeable to the statement of their forces taken by us, and the declaration of several prisoners) had the weakness to wait for an attack, has been completely foiled in the field of Hagozo. I cannot give you a detailed account of the result of the battle, as I am severely wounded, but hasten to let you know, that the whole of the enemy's infantry, and 400 hundred of their cavalry have perished, and that they have left the two pieces of artillery, all their ammunitions, muskets, horses, and four colors. I have also to mention that the hussars of Fernando 70, have acted a very gallant part in this truly brilliant action, and that to them we are indebted for much of the glory of it. All which I communicate for your information and satisfaction."

"LINO XENARO DE ROQUE. Calabozo, 5th December, 1817. To His Excellency the captain General of Caracas."

Extract of a letter from general Carlos Soublotte to one of his friends in this island, dated St. Thomas, (Augustura) November 8.

Since I had the pleasure of seeing you and your amiable family in Feb. 1816, the events of war have prevented me from giving you the slightest news of my situation; it is probable, however, that you would have learnt from public prints all our successes subsequent to our departure from Aux Cayes. We have lately made ourselves masters of the province of Guayana, of the navigation of the Orinoco, of a great part of the provinces of Cumana, Barcelona, Caracas, Barinas and Cassanare. We command all the plains. We are masters of all the horses and cattle; and have sufficient forces, both infantry and cavalry, to pacify all the rest of the provinces before the end of the year.

Extract of a letter dated St. Thomas, December 9.

By a vessel arrived here on the 2d instant from Augustura, letters have been received from persons of respectability, conveying the agreeable intelligence of the establishment of a supreme council of the nation at that place on the 11th ult. and of the election of general Simon de Bolivar as first magistrate, or executive power. The council seems to be divided into two sections, political and military; of the former Zea is elected president, and Brion of the latter.

The 25th November was fixed for the departure of 51 small vessels, with 1800 men, against San Fernando Zaraza, harassing the enemy somewhere about the Villa de Cura, and intercepting all their convoys from Calabozo.

General Bermudez, at the head of his army in Cumana, harangued his army in a proclamation, which I enclose. Monagas is closely besieging Barcelona. Union, peace, fraternity, security, civil and military—such are the general cries in Augustura, and among all the armies or divisions of the republic. The triumph of their arms, therefore, seems inevitable.

Mariana Montilla arrived here three days ago from North America; he brings very important gazettes, from which it appears that the government of the United States has despatched a frigate with a detachment composed of general Escal, a military chief, and two other persons, destined to the independent government of South America, in order to treat on the terms on which the United States are about to acknowledge the independence. In consequence of this, Rocio and Revengea had set out for Washington.

The precipitate departure of this vessel prevents me from sending you copies of all our letters from Augustura, and extracts of gazettes from that place; in this, however, is briefly delineated the most substantial parts of them.

Our enemies have promulgated a report here a few days ago, that 52 vessels with 5,000 men had arrived at Porto Rico from Spain. What a falsehood!—But thank God we have detected the insensate of it.

Jose Francisco Bermudez, of the order of Liberator, general of division of the armies of the republic of Venezuela, governor, commandant general of the province of Cumana, &c. &c. &c.

Inhabitants of Cumana!—I am commanded by the supreme chief to pacify the province and liberate the capital of Cumana, an undertaking most grateful to the feelings of my heart, and perfectly conformable to the well directed interests of my fellow citizens.

Inhabitants of Cumana!—I am one of your brethren, who, animated by just sentiments of amor patrie, has ever combated in Cumana for the liberty of Venezuela. With heartfelt grief I beheld the desolation of your fine province by Spanish ferocity, as well as by party spirit; with no less concern has the government witnessed the distress of Cumana, for how could it view with indifference a spectacle so horrid? It has, therefore, directed to my care the healing of your wounds, and I bring among you the balsam of concord. The forces under my command, and the elements of which I can dispose, are more than sufficient to drive to the sea, or bathe in their blood, those Spaniards who have laid waste your country. They shall be exterminated, and the lovers of faction shall either cease to exist, or enter into the circle of peace and obedience. This I swear, relying on your fidelity, valor and patriotism.

Inhabitants of Cumana!—You know me, and none better than yourselves are acquainted with the numerous sacrifices I have made for your liberty and glory. I love you as my brethren, and as such I come to link you to the chain which composes the great family of Venezuela, and from which you were hitherto separated by the baleful effect of discord. I come to rescue you, at the same time that I bring the olive of peace and the laurels of victory. J. F. BERMUDEZ. Head-quarters, Cumana, 1st November, 1817.

From the same, of Dec. 29.

There have been three arrivals this week from Puerto Cabello, but we have learnt no intelligence by them relative to the contending parties on the Main that can be depended on. It is stated that general Morillo left Valencia on the 10th instant for Calabozo, where he will establish his head-quarters. The independents are said to be in possession of San Fernando de Apure, but no general action had been fought, according to the last accounts received in Puerto Cabello. The belligerents must, however, be approximating very fast, and we may anticipate that a dreadful conflict is on the eve of taking place, which will probably decide the fate of Venezuela—a consummation devoutly to be wished."

The following is an account of the exports of sugar from Barbados to the United States, for the present year, up to 25th September: In 36 vessels, of 5,493 tons, manned with 366 seamen, 1,008 hhds. 1,346 tierces, and 169 barrels—2,559,422 lbs. wt.

From the Caracas Gazette of Nov. 5.

La Guayra.—On the evening of the 21st October the horizon was seen to be overcast, and more remarkably so towards the N. E. at the same time that the coast was clear and the sky serene on the side of the land. At 10 o'clock the sea began to run so high, that on the 22d, at break of day, nearly all the boats coming as usual in search of provisions went to the bottom. The surf continued to increase progressively, driving some large vessels towards the shores; from that moment the weather was such, that the waves were perceived to break at a vast distance from the land, in upwards of ten fathoms deep; all the vessels were making ready to put to sea, which they were prevented, however, from accomplishing, in consequence of the calm.—Their cables could no longer be of any service to them, and those anchored nearer to the land, or more exposed to the sea breaking upon them from the N. E. were driven with so much violence on the coast, that they were dashed to pieces, without the smallest hope of ever getting afloat. Fortunately the violence of the sea abated at 11, and about 2 P. M. the weather became clear and serene.—The number of the unfortunate who perished in the bay and on shore, without any possibility of being succoured, is

mounts to 17, and the vessels lost are as follows:

Brig Palermo, two bomb vessels, Gen. Morillo and Sacra Familia, and bark Caquetani of Spain.—A barge of this port; the Danish schooner Elizabeth and Victoria, and the English sloop Captain Bottin.

The commandant of this place, who during the portentous agitation of the weather, displayed the utmost zeal and activity, ordered several bodies of troops to protect the property washed ashore, and that on board the wrecks.

Prices Current.—Cocoa, 21 to 22 dollars; coffee, 12; cotton, 21; indigo, 9 1/2 and 10.

LITERARY NOTICE.

AMERICAN EDITION OF DR REES'S NEW CYCLOPEDIA.

The publishers beg leave to inform their subscribers, that vol. XXXVII, part 11, (being the 74th number) is now ready for delivery.

When the undersigned became proprietors of this work, it appeared to be the general and anxious wish of the subscribers, to have it completed with all possible expedition; and every exertion has been made by the publishers to meet those wishes. In the space of two years they have published twenty-five half volumes or Parts, seventeen of which (exclusive of a volume of plates) have been published in the course of the last year—a rapidity of execution which they believe has never been exceeded in any country. It has ever been the sincere desire of the publishers to fulfil their engagements to the subscribers to this great work with punctuality; and they have reason therefore to expect, on the part of the subscribers, a corresponding punctuality.

The American publishers have now printed this work as far as they have received the London copy; and as soon as they receive the few remaining numbers, which they have reason to believe will not exceed four, the American edition will be finished with all possible despatch.

This work already contains upwards of eight hundred Engravings; and, when completed, will probably (with the extra volumes of Plates) amount to one thousand. These plates will comprehend, as they believe, upwards of five thousand different subjects, in all the various departments of the Arts and Sciences. The engravings of the Portraits of distinguished American characters, promised to be given in the work, are nearly completed, and will be ready (with two volumes of extra plates) with the last number.

Those subscribers, who have not yet taken up their volumes, are once more notified, that two hundred and fifty copies less, of each of the last twenty-five numbers have been printed than of the preceding forty-nine; and, that, owing to this arrangement, which was rendered necessary by the neglect of distant subscribers to take up their books, and other uncontrollable circumstances, there must, inevitably, be upwards of two hundred and fifty sets left incomplete at the close of the publication. These who, through neglect or improper delay, may hereafter find their application for the completion of their sets too late, will have no reasonable cause of complaint against any one but themselves, as all the subscribers were individually advised of the edition being reduced, more than two years ago. MURRAY, INAPEN, FAIRMAN & Co. Philadelphia, Jan. 22.

HOUSE OF INDUSTRY.

The Public are informed that the House of Industry established by the corporation, is now in operation at the corner of Prince and Pitt streets, where donations from the benevolent will be thankfully received, either in Money, Wood, Food, or articles of Clothing, which will be faithfully applied. All persons wishing to have work done, either sewing, weaving, spinning, knitting, &c. can have it done at a moderate price, by application at the House of Industry.

Valuable Land for Sale.
THE subscriber wishes to sell two valuable Tracts of Land—one situated in the upper part of Fairfax county, adjoining the lands of Samuel G. Griffin, and bounded north by the Potomac river, containing 700 acres, about one half in wood; & of the cleared land a considerable proportion is first river bottom, equal in fertility to any in Virginia; the upland is well situated for farming and of a good quality. There is also a mill seat on the Tract of considerable value. This farm is worth the attention of any person wishing to engage in the farming business, as it certainly is not exceeded by any in the county (perhaps state) as a farm of profit, and may be had on reasonable terms. Mr. John Lickler, who resides near the land, will show it, and Mr. Wm. McCarty of Loudoun county, or Mr. John V. Ironaugh of Georgetown, D. C. will make known the terms. If this Tract is not disposed of before the 2nd of MARCH, it will then be exposed to PUBLIC SALE, at Wiley's Tavern, on the road leading from Alexandria to Leesburg.
The other Tract contains 1000 acres, and is the upper and most valuable part of the Tract I live on. It is situated ten miles below Alexandria, and bounded N. by Accotink creek. This Tract will be divided to suit purchasers, if found necessary. Persons wishing to purchase will apply to the subscriber living at Cedar Grove, who will show the land and make known the terms.

To the Flour and Rice Millers OF THE UNITED STATES.
GENTLEMEN.—It appears that many have refused to pay for license to use my improvements in the art of manufacturing flour, and in lessening the labor in rice mills, waiting the decision of the United States courts; while many others have paid freely the sums I demanded for my license; there can exist no reason, why some should pay and others be exempt. There has already been a sufficient number of decisions establishing the law, that each intruder is liable to pay treble my actual damages, which cannot be rated at less than the value of the use of my property during the infringement. I have expended the greatest part of a long, arduous, and indefatigable life in study and exertions to invent and introduce into useful operation several important and highly useful improvements, from which great benefits are derived to the users, and I could have put in operation many more equally useful, but was prevented by the unjustifiable opposition, wasting the profits of those in operation, which I had intended to apply to put others in operation which I had discovered; but which now lay dormant to my great mortification and the public injury. I come into the courts claiming remuneration for my time and labor—the great expenses that I have incurred in advertising repeatedly over the United States, and in my agents travelling for many years to make the utility of the improvements known, and to instruct millwrights to make, and millers to use them. The law contemplates that I shall receive ample remuneration, and by it I was encouraged to risk the great expenses. I have repeatedly published that the price of my license for the remainder of the term should be, the full price of the labor and boarding saved by the use of my improvements in one year only, with lawful interest until paid; but to those who infringed my rights, and refused to pay when called on, I would, beginning with the year ending January 22, 1815, count the sum saved in labor and boarding during the last year (equal to the first price) as a new sum becoming due, and running on interest also; and so on, the 22d day of January in each and every year thereafter a new sum saved in labor and boarding becomes due, and runs on interest until license be purchased, demanding the interest only on all these sums, leaving the principal in the hands of the users; which is the least I can receive of them to meet the expenses which they have compelled me to incur. The above are now the only terms on which my agents are instructed to grant licenses, and they are instructed to institute suits against all infringers without giving them another call.
Those who wish to purchase licenses may apply to John Love, esq. Buckland, Prince William county, or to Capt. John Moody, Richmond, Va.
OLIVER EVANS.
NOTE.—Persons using Mr. Evans' improvements, or parts of them, unpaid for, will be sued if they do not discharge the claim on application. Mr. William H. Alexander has, under my authority from Mr. Evans, been empowered to receive payments and deliver licenses to use his improvements. Payments, therefore, made to him, John Moody, or myself, will alone be valid, and save the expense of suit and treble damages to the defendants.

Sully for Sale.
THIS estate, situated in the county of Fairfax, twenty-two miles from Alexandria, and the same distance from Georgetown, contains about seven hundred and fifty acres. Little River runs pike passes through it half a mile from the dwelling house. The situation is handsome, and remarkably healthy; the water is good and abundant. The soil which was originally excellent, has for some years past had the advantage of improving husbandry, Plaster of Paris acting with powerful and immediate effect on all grasses and grains. The fields present a good surface for cultivation; and those now untillied, are covered with red clover. The orchards are very large and thrifty; the collection of table fruit is choice and various. The mansion is spacious and well constructed; the out-houses are conveniently situated, and the whole have been lately thoroughly repaired and painted. The farm houses, which are all nearly new, are expensive and excellent in their kind.
For a gentleman of leisure this would be a delightful residence; and a profitable estate for an active farmer. The title is indisputable, and perfectly unincumbered.
A number of well taught orderly young men, with good stocks and farming utensils of all kinds, and the crops of the present year, if desired, will be at the command of the purchaser.
Application may be made to the subscriber, living on the premises, next the post-office at Pleasant Valley, in Fairfax.

Valuable Family Medicines.

JUST received, direct from the proprietors, the following valuable MEDICINES, all of which have been in use for a number of years past, in almost every part of the United States; have been highly patronized by people of the first respectability; and approved by those who have had occasion to make use of them, for the cure of those disorders for which they are severally calculated.

Dr. Lee's Genuine (Windham) Bilious Pills.

Universally known and used throughout the United States as a family medicine. The fame of these pills has become so great, that many have attempted to counterfeit them—to guard against this, the proprietors have procured a stereotype label, and each box of Genuine Lee's Pills will hereafter be enclosed in one of these labels, with these words on the sides: "Lee's Genuine Windham Bilious Pills" and on the end of the box

the words, "Samuel Lee, patentee, &c. I. Thompson, agent, joint proprietors," &c. and should any be offered for sale without said label on the purchaser may be apprised that they are counterfeit.

Dr. Thompson's celebrated Eye Water. For the cure of inflamed and sore eyes of almost every description. This valuable preparation comes highly recommended from the most respectable sources.—Price 50 and 25 cents a bottle.

Dr. Rawson's Genuine Itch Ointment. A certain and safe cure for that disagreeable complaint, as well as other eruptions of the skin. Price 37 1/2 cents a box.

Dr. Rawson's Anti-Bilious and Stomachic Bitters. For weakly and infirm constitutions. Price 37 1/2 cents a box.

Hinckley's Infallible Remedy for the Piles. A most valuable medicine. Price 50 cents a box.

Thompson's Aromatic Tooth Paste. For whitening and preserving the teeth—it may be used with the greatest safety. Price 50 cents a box.

Specific Drops for the Tooth Ache. Which, in almost every case, gives instant relief in that distressing complaint. Price 37 1/2 cents a bottle.

Cooley's Vegetable Elixir for Coughs, Asthma, Consumptions, &c. A very valuable medicine in those complaints. Price 50 cents a bottle.

For sale, in Alexandria, by Dr. Rich'd. H. Ellis; in Washington City, by Dr. David Ott; in Georgetown, by Dr. John Ott, Ohio M. Linthum & Co. and Nathaniel Jewett.

James Kennedy & Son,

BOOKSELLERS.

KING-STREET, ALEXANDRIA.

RESPECTFULLY inform the public

that they have just received from

Lee's Medicine Store,

No. 46, Maiden lane, New-York, a fresh

supply of the following valuable MEDICINES:

Hamilton's Worm-destroying Lozenges.

Which have within sixteen years past

cured an immense number of persons of

both sexes of every age and in every

situation, of various dangerous complaints

arising from WORMS, and from obstructions

or foulness in the stomach and bowels.

This medicine bears no analogy what-

ever to others of similar title, so com-

monly complained of as operating with

violence; on the contrary a particular

excellence of this remedy is its being

suitable to every age and constitution. It

contains nothing but what is perfectly in-

nocent & is so mild in its operation that it

cannot injure the most delicate pregnant

lady or the tenderest infant of a week old

should no worms exist in the body; but

will without pain or griping cleanse the

stomach and bowels of whatever is foul

or offensive, and thereby prevent the pro-

duction of worms and many fatal dis-

orders. The lozenges are particularly

efficacious in carrying off all gross hu-

morors and eruptions, feverish and bilious

complaints, and are the safest and mild

est purgative that can be used on any

occasion.

Description of Worms, and the symptoms by which they are known.

Worms which infest the human body

are chiefly of four kinds viz.—The Ter-

res or large round worm; the Ascarides

or small maw-worm; the Cucurbita

or short flat white worm; so called

from its resemblance to tape. This is

often many yards long and is full of

joints. It is most hurtful and most difficult

to remove.

Among the symptoms attending worms

are—disagreeable breath, especially in

the morning; bad and corrupted gums;

itching in the nose, and about the seat;

convulsions, epileptic fits, and sometimes

privation of speech; starting and grinding

of the teeth in sleep; irregular appetite,

sometimes loathing food and some-

times voracious; purging with slimy

and foetid stools; vomiting; large and hard

belly; pains and sickness at the stom-

ach; pains in the head and thighs and

lowness of spirits; slow fever with small

and irregular pulse; a dry cough; ex-

cessive thirst; sometimes pale and unhealthy

countenance; and sometimes the face bloated

and flushed.

Persons afflicted with any of the above

symptoms should have immediate re-

course to Hamilton's Worm Destroying

Lozenges, which have been constantly

attended with success in all complaints

similar to those above described.

A dose of this medicine given occa-

sionally during the warm season, will ef-

fectually prevent the vomiting and pur-

ging of children—a dreadful disorder,

which annually destroys thousands of the

infant part of our citizens. It is likewise

the mildest and most certain remedy

known, and has restored to health and

strength a great number when in an ad-

vanced stage of this fatal complaint. Partic-

ular and plain instructions are given

for every part of the necessary treatment

in such cases.

Children generally take this medicine

with eagerness; having a pleasing ap-

pearance, and an agreeable taste.

The Restorative Powder for the

Teeth and Gums.

For the prevention and cure of

BILIOUS and MALIGNANT FEVERS,

is recommended

RAHN'S ANTI-BILIOUS PILLS.

THIS Medicine has been attended

with a degree of success highly grateful

to the inventor's feelings in several parts

of the West Indies and in the Southern

and Middle States, &c.

The testimony of a number of persons

can be adduced, who have reason to be-

lieve that a timely use of this salutary

remedy has, under Providence, preserved

their lives when in the most alarming cir-

cumstances.

Facts of this conclusive nature speak

more in favour of a medicine than co-

lums of pompous eulogy founded on

mere assertion.

It is not indeed presumptuously pro-

posed as an infallible cure, but the inven-

tor has every possible reason that can re-

sult from extensive experience fac-

ilitating that a dose of these Pills taken

once in every two weeks during the pre-

valence of our bilious fevers, will prove

an infallible preventive; and further,

that in the earlier stages of those diseases
